

## TA Cloud Connect

### Scanning and printing directly to and from your cloud account.

Everyday business life is becoming increasingly dynamic and mobile. The use of smartphones, tablet PCs and cloud services has become the norm in many branches of business. But it is not just availability that matters. What do you do when you need to print a document saved to the cloud, or if you have to find the right document quickly? TA Cloud Connect is an uncomplicated solution that reliably allows you to access your personal cloud account directly from any HyPAS™-enabled multifunctional printer (MFP). Without a computer, essentially at the touch of a button, you can scan to the cloud while away from your office, and also print from the cloud at the nearest HyPAS™-enabled MFP. Using keywords and tags, you can access the right document directly. This is mobility that works.

#### YOUR CHALLENGES

In order to be more mobile, I save my documents to my cloud memory. How can I ensure that I can print documents without a computer?

Do I have to scan documents in on my PC before I can upload them to the cloud, or is there a faster way?

Access restrictions are indispensable in my business. How can I secure access to my data in the cloud?

#### YOUR SOLUTION WITH CLOUD CONNECT

**Printing without a computer:** You can access Google Drive™ or Evernote™ directly from the MFP to print your documents.

**Take the short cut:** With Cloud Connect, you can scan documents directly from the MFP into your cloud account, entirely without a PC.

**Data protection:** Your Account is protected by a username and password, keeping your data secure.

## BUSINESS CHALLENGES

TA Cloud Connect is the consistent connection between your MFP and your cloud memory: It allows simple and direct access from the MFP to your Evernote™ or Google Drive™ account, in order e.g. to upload files. Conversely, printing is possible in an instant. Cloud Connect supports the formats JPEG, PDF and TIFF, and is guaranteed user-friendly thanks to its intuitive menu interface. Do you save a lot of documents to the cloud? If so, you will appreciate the practical search function. Whether on-the-go from your smartphone or tablet, from a computer, or directly from the MFP using Cloud Connect, you can access your documents in the cloud anytime, anywhere, and thus save yourself the need e.g. to have paper documents with you.

### SCAN TO CLOUD

Upload scanned documents directly to your Evernote™ or Google Drive™ account.

### QUICK SEARCH

Display all documents, or use the search function directly on the device screen.

### PRINTING FROM THE CLOUD

Access your documents from the touch screen of your MFP.

### SUPPORTED LANGUAGES

Cloud Connect can be set up in English, Spanish, French, Italian, German or Japanese.

### NO PC REQUIRED

The installation process is simple, and the application does not require a separate server.

### FILE FORMATS

JPEG, PDF and TIFF formats are supported for printing and scanning.

## PRINT ANYWHERE

Mobile end devices such as smartphones and tablet PCs have changed the way we work. And new challenges keep on appearing in business as a result. Timing is of critical importance in the business world, and documents are increasingly being saved and even shared in a cloud.

TA Triumph Adler solves your requirements in relation to mobility and cloud services – irrespective of whether you want to print from mobile end devices or from the cloud. Data security is always included.

## SUPPORTED SYSTEMS

Compatible with all HyPAS™-enabled multifunctional printers.

Please note that some HyPAS™-enabled systems require a compatible optional memory card.

TA's HyPAS™ platform allows the development of customer-specific business applications for multifunctional printers. These expand the range of services provided by the system to meet the requirements of each user.

**HyPAS™**

In the document business, TA Triumph-Adler is the specialist. We analyse and advise business customers individually, implementing efficient document workflow in both paper and electronic forms, and providing sustainable service. In process optimisation, and whenever professional users manage, print, photocopy, fax, present and archive documents, Managed Document Services from TA Triumph-Adler are the first choice. Our customers profit from the consumption-optimisation technologies of our innovative systems.
